 SYSTEME / RETAINE		Use as much or as little as you need for comfort from irritation.						

Please call our office if you experience sudden vision loss or pain.

6624 Fannin, Suite 2105 • Houston, TX 77030 • 713-791-9494

- ◆ Wait 3-5 minutes in between each eye drop
- ◆ You may sleep on your operated side. Wear your protective shield for the first week when you nap and sleep.
- ◆ Do not rub your operated eye.
- ◆ You may resume most of your NORMAL activities.
- ◆ Bending is ok.
- ◆ Limit any activity which causes excessive strain or repeated jarring for one week.
- ◆ You may wash your face and hair. Be careful not to get shampoo in your operated eye.
- ◆ No swimming for 4 weeks.
- ◆ Wear your dark plastic glasses as desired. They offer good protection and decrease glare.

Please call our office at 713-791-9494 if you experience sudden vision loss or pain.

Cataract Pre-Operative Instructions

If you are currently on blood thinners or aspirin please
DO NOT discontinue prior to surgery.
